

What is a Visual Inspection?

To ensure the safety of our residents ClwydAlyn have dedicated Fire Officers, this factsheet is aimed to tell you what they do when they carry out a visual inspection

What is a visual inspection?

The Fire Officer will check the communal smoke detectors and fire alarms are not visibly damaged or broken. They will also check that communal areas such as corridors are free from rubbish or clutter. Residents are not allowed to leave anything in the communal areas as they pose a risk in the event of a fire. Fire Officers make sure no one is leaving anything in the communal areas and advising residents to remove them if found.

I want to give feedback or raise an issue, who should I contact?

We welcome your feedback in order to improve the services which we provide, please contact us with your comments, concerns using one of the following methods:
